

Step UP! Bystander Training
Thursday, October 14, 9:00 - 10:30 am
[Register here for the Zoom event](#)

Have you ever been concerned about a situation and wanted to help...but didn't? You're not alone. The situation is more common than you might think and is known as the bystander effect.

This evidence based foundational [Step UP! training](#) educates participants on the concepts of bystander intervention. It will cover:

- Why we sometimes don't intervene
- Social and cultural identifiers – how identity and context impacts intervention
- Being an active bystander (how to overcome barriers)
- How to address microaggressions

Funding has been provided, in part, by the County of Placer Mental Health Services Act.
